## PROFILE

A highly skilled and creative UI/UX Designer, Creative Designer, and QA Specialist with extensive experience in designing intuitive user interfaces, crafting compelling digital experiences, and ensuring product quality. With a strong background in freelance and in-house roles, I have contributed to the development of engaging websites and applications for various clients and organizations. I have expertise in wireframing, prototyping, and creating interactive design solutions, alongside a solid understanding of user research and quality assurance practices. Adept at collaborating with cross-functional teams to deliver high-quality products, I am passionate about staying up-to-date with the latest design trends and technologies to ensure competitive and user-friendly outcomes. Currently pursuing a degree in Information Systems to further enhance my technical expertise and knowledge.

## WORK EXPERIENCE

### **ALLSHOP Malaysia**

**June 6, 2021 – August 2021**

#### **Freelance Creative Designer**

- Worked on a project to create an opening video for an international online shop.
- Designed the storyboard, performed animation, and edited the video to introduce the company's brand.
- Collaborated with the client to understand their needs and ensure the final product met expectations.

### **PT Trijaya Pratama Futures**

**February 8, 2023 – August 2023**

#### **Freelance UI/UX Designer & QA Specialist**

- Worked on developing the user interface (UI) and user experience (UX) for the company's app.
- Designed wireframes, prototypes, and responsive, engaging UI designs.
- Conducted user research to understand needs and implemented feedback into the UX design.
- Performed QA testing to ensure the app met quality standards, including compatibility, performance, and usability.
- Prepared detailed testing reports and provided improvement recommendations to the development team.

### **PT Hidup Sukses Foloni**

**February 3, 2023 – Present**

#### **UI/UX Designer, Creative Designer & QA Specialist**

- Responsible for designing the user interface (UI) and user experience (UX) for the company's app and website.
- Created interactive prototypes to visualize design concepts and facilitate communication with the development team.
- Designed various creative materials, including branding, digital marketing assets, and visual content for internal and external use.
- Conducted QA testing on apps and websites, identifying bugs and providing recommendations for improvements.
- Collaborated with cross-functional teams to ensure products met design standards, user experience, and performance quality.
- Implemented the latest trends in creative design and technology to maintain the competitiveness of products in the market.
- Provided basic training to colleagues on UI/UX principles and QA processes to enhance cross-team understanding.
